Dear Tim,

We at Schmitt Industries greatly appreciate the work you did for us in supporting our engineering staff while investigating and resolving a number of technical challenges related to development and production of our Acoustic Emission Monitoring product. The expertise you and your firm were able to bring to bear really helped us come to a very successful conclusion to our project, and our grinding industry customers have been giving us rave reviews. I and the other staff at Schmitt also enjoyed the friendly professionalism you extended. It is good to know that we have your company available for similar future consultation.

Sincerely,

David Case  
VP Operations
